Year Agency Established: _____

Case Worker's Name: _____

Case Worker's Email: _____

Case Worker's Phone Number: _____

*If more than one Case Worker, please list all case Worker's information on page two.

Brief description of Agency's Mission Statement/Statement of Purpose:

How does your Agency provide client support, services, training for job placement and employment opportunities to help the women in the workforce?

The Junior League of Salt Lake City's program Women Helping Women (WHW) provides women in the community with professional clothing to help support them in building confidence in preparing them for employment opportunities. Please write why your clients would benefit from our WHW Program.

We work with our WHW Boutique clients for a year to provide them with 9 professional outfits and other accessories and toiletries. Once they have completed their referral we will provide an “Exit” survey to their Case Worker to follow-up to see how the clients have improved their goals towards self-sufficiency and their socio-economic situation. All information is confidential. What is your Agency’s specific goal in helping the women maintain stable employment?
